GMAIC Working Group

- Attachment 1. Daily Log of GMAIC Working Group Activity
- Attachment 2. Production Group Membership
- Attachment 3. Deployment Group Membership

1. In accordance with your request, a daily log has been prepared of GMAIC working group activity at PIC since its inception on 1 March. It is attached as attachment 1.
2. Two special courier runs to Fort Meade have been requested and accomplished.
3. Lab work requested for the Production Group was accomplished expeditiously. Twenty requisitions, involving 16 enlargements, 18 contact transparencies, and 61 density cuts, have been ordered and filled. Most of this work has been in support of the Production Group.
4. Forty-three separate specific requirements have been processed for the Production Group, and all but one have been answered.
5. More than one hundred requirements have been processed for the Deployment Group. All of the requirements have been answered sufficiently for the Deployment Group to continue with its work, but many of the requirements have yet to be completed.
6. Mr. Carl Duckett of ABMA and [redacted] have been consulted by both teams. [redacted] has been consulted by the Deployment Group.
7. Nineteen final report graphics have been ordered by the Production Group. Fourteen of these have been returned to the Group for final changes and approval.
8. One briefing board has been requested by and prepared for the Deployment Group. Final report graphics requests for the Deployment Group are being prepared. About twenty-five will be required.

9. The Chairman of the Deployment Group, Major Clark, has been requested to present the preliminary findings on deployment to the JSSC this afternoon. He requested that PIC nominate a Photographic Intelligence Officer to accompany him to answer specific questions. [] who as you know is coordinating the work of both teams, suggested that [] be nominated by PIC, and I concurred.

10. It is anticipated that the Deployment Group will spend all day tomorrow with the Patton Group. The session will probably last well into the evening.

11. On Wednesday, Major Clark expects to complete his final report. It will be ready for reproduction at about midnight. Since it is due at CHAIC on Thursday, it is suggested that we have a night shift on the multilith machine.

12. It may be necessary also to have the Photo Lab work overtime Wednesday evening in order to finish shooting the plates.

[] were the briefers.

During the period 8-21 March, both GMAIC groups continued work sessions at PIC, including night sessions by the Deployment Team on 9,16,17, and 18 March, and other off-duty work on Saturday and Sunday, 19 and 20 March. During this period, the Deployment Group visited the AFEMD, Vandenburg AFB and Warren AFB. The group departed PIC the morning of 11 March and returned the morning of 15 March.

During the period 8-21 March, work progressed on the requirements levied by the GMAIC Group. Photo interpreters, and support personnel assisted both GMAIC groups daily, and worked nights and weekends to fulfill requirements. All requirements were accomplished within the time limits imposed, except for one or two delays caused by breakdown of equipment.

On 21 March, a preliminary presentation of results was delivered orally by Major Clark and [] to the JSSC. A preliminary position paper was prepared and reproduced on Monday morning, 21 March.
